LISTEN WITH YOUR EYES WIDE OPEN.

Discerning ears love good sound. When the discerning eye also needs to see something, this must be equally as good.

Fohhn® Audio Systems convince experts senses daily all over the world. As good sound depends on more than excellent loudspeakers, we offer complete sound systems, perfectly adjusted to each other, allowing total ease of operation.

REGARDLESS HOW THE ROOM IS WITH FOHHN®, IT WILL SOUND PERFECT.

SKIING STADIUM OBERSTDORF, GERMANY
AUDIO SYSTEM: FOHNN®.

BAROQUE CHURCH ST. LAMBERT, TEUNZ, GERMANY
AUDIO SYSTEM: FOHNN®.

AIRPORT MUNICH, TERMINAL 2, GERMANY
AUDIO SYSTEM: FOHNN®.

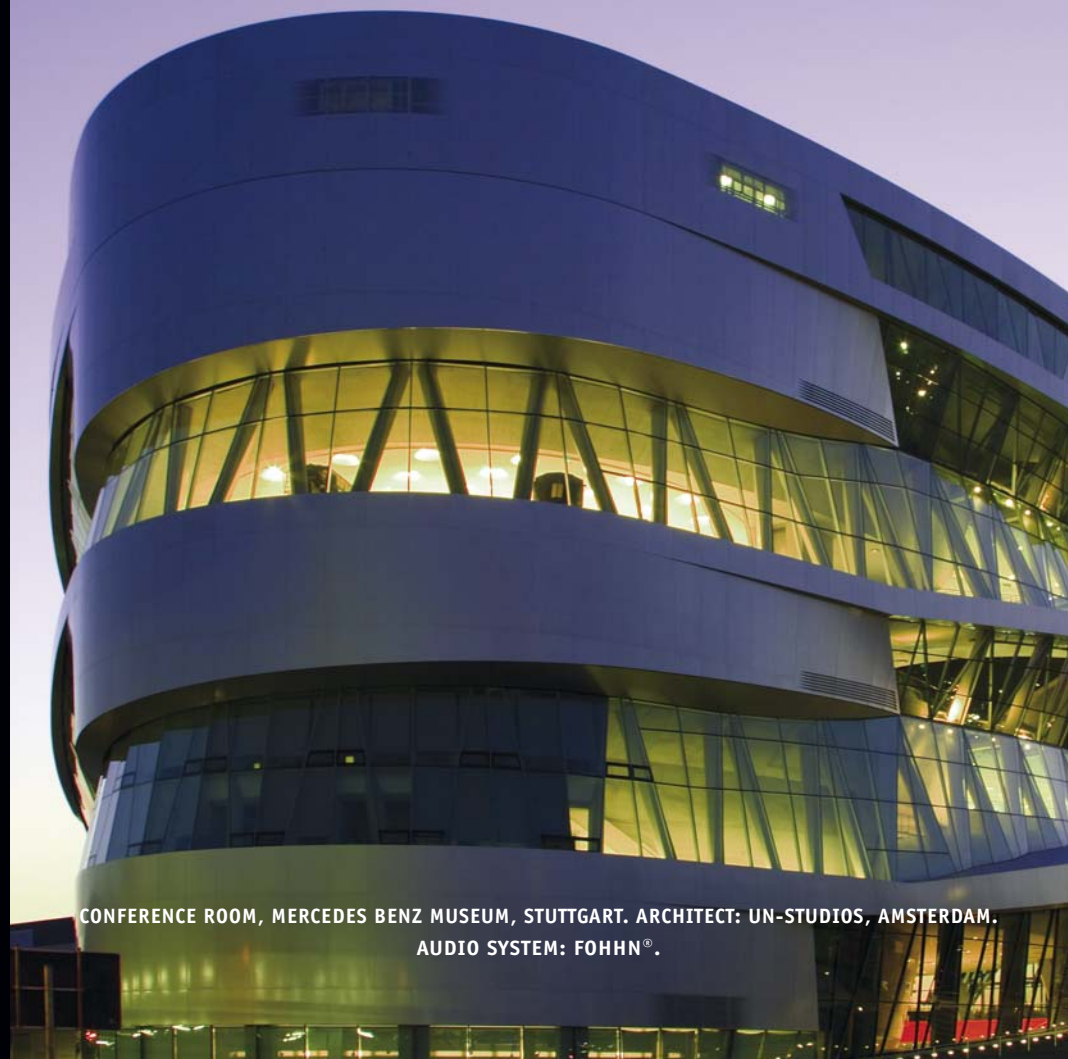

ARD TELEVISION STUDIO, GERMANY
AUDIO SYSTEM: FOHNN®.

Fohhn® Audio Systems deliver maximum performance whether in the Alps, by sub-zero temperatures or in acoustically highly demanding sacred buildings. Naturally, many other clubs, theatres, stadiums, airports, shops and conference rooms, from Las Vegas to Moscow, or from Helsinki to Beijing, benefit from the Fohhn® Sound Systems.

We find many aspects where Fohhn® comes to the fore: at the new terminal building at Munich Airport the speech intelligibility was for example, the deciding argument. A perfectly balanced system was the crucial factor in fitting out the installation at the television studio at ARD, Germany. In virtually all cases the unobtrusive design is a deciding factor.

BY THE DESIGN OF AN ARCHITECTURAL
MASTERPIECE, ONLY AN AUDIO SYSTEM OF
SIMILAR QUALITY WOULD BE ACCEPTABLE.

CONFERENCE ROOM, MERCEDES BENZ MUSEUM, STUTTART. ARCHITECT: UN-STUDIOS, AMSTERDAM.
AUDIO SYSTEM: FOHNN®.

FIFA WORLD CUP STADIUM, KAISERSLAUTERN. ARCHITECT: FOLKER FIEBIGER, KAISERSLAUTERN.
